MISSION COVERAGE SUMMARY

Mission B 1466
26 August 1958

25X9

Quality

Quality of target images for photo interpretation ranges from good to poor, but poor quality predominates. There was a large amount of haze, with deep shadows in part of the mission.

Categories

Information is listed by categories, as shown in the Table of Contents. Arrangement within categories is as follows: Airfields and Urban Areas--alphabetically by (1) country and (2) city or installation all other categories--by (1) country, (2) WAC number, and (3) degree square. A geographic index follows the text.

Coordinates

Reference to each item by a single pair of coordinates is a matter of convenience in data recall. The coordinates used are those of the southwest corner of the one-minute square in which the item occurs. In referring to certain targets, such as roads, the coordinates of the approximate midpoint are listed in the heading and additional coordinates may be cited in the description.
